Discover FunCakes

FunCakes is like your **best buddy** who likes baking as much as you do. The one you talk non-stop about baking with, who enjoys a piece cake like you do and who always inspires you with new ideas. It's also the one you call when your buttercream keeps on separating or your cake collapses. We are like your best baking buddy, because we started just like you did.

On the basis of our brand are owners who love baking as much as you do. FunCakes was created 2009 out of their search for **baking products of professional quality** for home bakers like themselves. Cause why should we be limited to basic products in our own kitchens?

We love to keep trying new things. So we mix and match our own products into new, surprising combinations. We hope you do the same. Cause by adding your own creative touch to our products, cakes become really special.

We develop baking mixes for cakes that are super tasty and of **perfect texture**, but still really easy to prepare with just butter, eggs or water. These can be combined with our toppings and filling to which you can also add one of our flavourings and colourings to really make it your cake.

Just as much as we **love baking**, we love cake decorating. So you will also find a rainbow of sugar paste and marzipan colours, many sprinkles and happy sugar decorations to finalize your cake! We keep on adding new products based on trends and new developments, so check out our complete assortment.

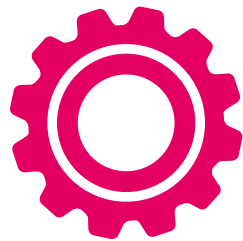

FunCakes is based in Amsterdam, The Netherlands, but you will find our products everywhere in Europe, mainly in cake decorating stores, several store chains and of course online!

CakeSupplies is our exclusive distribution partner. All our products are shipped from their warehouse in Amsterdam, The Netherlands. If you are interested in becoming a FunCakes reseller, please contact CakeSupplies.

Toppings & Fillings

Think of cakes, cupcakes, macarons, donuts and pastries without the filling and what's left is much less interesting. Sure, we love a nice cupcakes. But the **topping of buttercream** or Enchanted Cream® is what makes it so good. And what's a red velvet cake without frosting or petit fours without a nice layer of jam in the middle?

Exactly. Boring, unsatisfying, a bit so-so. Yes, disappointing we might even say. It's not what you as a home baker gets you in your kitchen. What makes you to preheat your oven and get that mixer running. No need to explain. That's why FunCakes has these pages full of mixes for the most **addictive cake fillings and toppings**.

Colourings

Bright colours or soft pastels. Having fun experimenting to find that perfect tint. It makes us so happy, we decided to develop a very wide range of **colouring products**. One of our happiest babies, bringing you not only food colourings, but also food pens, dust powders, paint and sprays.

You know us, we love it when you blend our products with your own creativity! So as with everything from the FunCakes range, don't be scared to **mix and match all you like!** Create your own unique colours by mixing different gels or paste colours.

Materials

Who doesn't know how to ski after years of practice, always burns his eggs or makes unsharp pictures all of time, might blame it on the **material**. Something everyone around him laughs about, but in fact it's not complete nonsense. We wouldn't dare to say that good ski's will automatically make you a good skier or that it's impossible to burn things in a good frying pan, but good quality material sure does make a **huge difference**. And that surely also applies to baking.

Basic assortment

Marketing & Instorematerial

Marketing and instore material are essential to pull customers into your store, inspire them with baking ideas and to put products in the spotlight. We therefore continuously create instore material for the retail such as logo signs, cubes, poster sets, flyers, post cards, tent cards and wobblers.

Calculate your ingredients

Quantity calculator

On our website you can find a quantity calculator. **No more complicated calculations** to determine the right quantities for your baking pan. In our calculator you can easily choose your baking mix and the shape and size of your baking pan. The calculator does the rest! This way you are always sure of the **right amount of batter**. Zero waste and no cakes that are too flat.

The calculator also tells you how many portions you get from your chosen size baking pan. Comes in handy if you have the whole family visiting. Because there should always be enough cake, right?

How to use the calculator?

- First choose your FunCakes Baking Mix from the dropdown menu.
- Then pick the shape of your baking pan and fill in the correct measurements.
- The calculator does the rest.
- You can also find the calculator on every product page of the specific baking mix. There you will also find the preparation method & recipe inspiration.

QR codes

On all our baking mixes you can find QR codes. Scan the QR code on the packaging to view the preparation method of that product in English, Dutch, French, German, Spanish and Italian. You can also find some delicious recipes with that specific baking mix on this page.
